“ This camp was exactly what Victoria needed. The coaches take time to explain and demonstrate the ls to the large group and then breaking into smaller groups to give individual feedback, was spot on for her development. I loved how the coaches

rotated, looking at the kids learning experience. You could see the respect that the kids had for the coaching staff by the way they listened and worked hard to follow your direction. More important at least to me, then the skills leaned was the kids and coaches really seemed to be having fun. Although the kids left with sore legs, (probably some of the coaches too) they were happier, more confident, and had a greater love for hockey than

the week before.

I want to congratulate you on not only coaching great hockey but also on improving the kids' self-esteem.

- Sincerely, Tim
